Thanks so much. By the way, do you know anything about the air data that's been collected or who I can contact to get that?
Julie

Yes. mg/Kg dry weight except for except for the Powell Park Mulch samples. For the mulch samples, the units are mg/Kg wet weight. Thank you for pointing that out. The units actually show up when the document is printed it is part of the title but it should also be somewhere more obvious. -Aaron

Thank you for the quick response. Are these results in units of mg/kg?
J.
